Blade Servers

The next Tsunami in
Computing &
Communications

An Industry Report
2008

Author: Anil Vasudeva
Chief Analyst, IMEX Research

IMEX
RESEARCH

T A B L E O F C O N T E N T S

1. Executive Summary

The rise of Blade Computing.....	2
Data Center Requirements	2
Advantages of using Blade Servers.....	3
Blade Architecture	5
Market Dynamics	6
Blade Servers - WW Market Opportunity	6
Growth Drivers for Blade Servers	6
Volume driven economics.....	6
Market Segmentation by Applications	7
Product Requirements in 3 Tier Computing.....	7
Product Requirements in 3 Tier Computing.....	8
Blade Server Management.....	9
Unique Management requirements for Blade Servers	9
Unique Management requirements for Blade Servers	10
Standardization in Blade Servers	10
Key Blade Server Technologies.....	11
Storage for Blade Servers	11
Market Opportunity Sizing.....	12
Blade Server market - on steroids.....	12
Competitive Positioning & Strategies of Players	14
Market Share Leaders.....	14
IBM the new leader in Blade Servers	14
Intel spreads its wings in blades	14
Status of Blade Servers Marketplace 2008	15
A new de facto blade server standard emerges.....	15
Industry Structure	16
Manufacturer, Channel, End Users by Verticals	16
Blade Futures	16
IP Everywhere - the Holy Grail	16
Recommendations	17
Recommendations for Vendors.....	17
Recommendations for EU	17
Recommendations for Investors	18

2. Market Drivers & Industry Dynamics

The Rise of Blade Computing	3
Computer Architectures - Scaling Up vs. Scaling Out	3
Deficiencies of Current Architectures.....	3
CISC vs. RISC.....	4
HW vs. SW Provisioning	5
The evolution of Blade Architectures	5
Fabric Architecture for Blades.....	5
Shared I/O architectures	6
Growth Drivers for Blade Servers	6
Towards de facto standardization	7
Change is afoot on the server front.	7
Intel Microprocessors Roadmap	8
Xeon with 64 -bit extensions	8
Xeon Product Line.....	9
Itanium Product Line	9
Workload Types & Variations	10
Managing Datacenters - Cost by Function Performed.....	10
Datacenter Workload Distribution	10
Explosion in Data Base Size Growth.....	11
Scale-Up Versus Scale-Out Computing	11
WW Server Revenues by ScaleOut vs. ScaleUp Segments	12
Scaleout Computing.....	12
Integration	12
Interconnects.....	12
Interconnects in Supercomputers	13
Another approach from the startups	13
Clustered Computing.....	15
Economics of Rack vs. Blade Servers	16
Acquisition Costs.....	16
TCO Analysis.....	16
Assumptions.....	16
Evolution of the x86 Server Market.....	18
Driving Factors Behind Blade Servers	18
Server Utilization and Quality-of-Service	19
Challenges	19
State of IT Spending 2007	20
Data Center Requirements	21
Data center Manageability	21
Evolution of Storage for Blade Server Environments	22
Blade Server Storage - Requirements	25
All Blades Are Not Created Equal	25
Web/Edge Server Blades.....	26
Flexible Midrange Server Blades	26
Storage Blades.....	26
Rapid Increase in Areal Density Brings Opportunity.....	27

Challenges of Blades and Networked Storage	27
Enterprise Class Reliability	28
Data Security	28
Industry Road Map	29
1st Generation Blade Servers	29
Features	29
2nd Generation Blade Servers	29
Second wave	29
Cost/tpm-c for Intel Industry Standard Servers vs. RISC Servers	30
IP Everywhere - the Holy Grail	30

3. Market Segmentation & Product Requirements

Market Overview	3
Market Segmentation by Application	3
Market Segmentation	4
Market Segmentation by 3 Tier Computing	4
Tier-1 Edge Computing	4
Tier 2 Application Servers	4
Tier-3 Back End Data Base Servers	4
Product Requirements by Tiers-1, -2 & -3 Computing	5
Market Requirements in Tiered Computing	5
Sizing of I/O Traffic in Tiered Computing	6
Computer Architectures - Scale-Up vs. Scale-Out	6
Market Segments by Platforms	6
Product Requirements by Platforms	8
Blade Servers:Storage Requirements.....	8
Server Blade Interconnect Requirements.....	8
Blades: "The Key Attribute is Making Data Centers Cost Less"	8
Interconnect for Server, Switch, Storage I/O Blades	8
InfiniBand™ Switch Fabric Advantages	8
Market Segmentation by Applications	8
HPC - Enterprise/DB	10
High Performance Computing	11
Situation	12
Scale-Out Approach to Problem Solving	12
Scale-Up Versus Scale-Out	12
Solution	13
High-Performance Relational Data Storage.....	13
Scale-Up Parallelism.....	14
Web Service-based Architectures	14
Benefits	14
Performance and Utilization Improvements	15
Improved Productivity.....	15

Improved Manageability	15
Real-Time Response and Integrated Results Management.....	15
Conclusion.....	15
Market Segments by Vertical Markets	15
Health/Medical	16
Financial/Banking	16
Research/Academia	17
Research Exploration/GIS	17
High-density Linux clusters	17
Imaging.....	17
Oil & Gas Exploration.....	17
Utilities	17
Entertainment.....	17
Graphics - Design & Rendering	17
Video, Film, Broadcast.....	18
Transportation.....	18
Engineering	18
Manufacturing	18
Government.....	18
Defense	18
Education.....	19
Clustering.....	19
The Growing Market for Clustering	19
The Benefits of Cluster Computing Solutions	19
Linux Expertise.....	19
High Performance	19
High Availability.....	20
Scalability	20
Manageability	20
Cluster Applications	20
Cluster Product Requirements	20

4. Market Demand Forecast & Market Shares

Blade Servers Market Forecast.....	2
Standard Servers Market Size.....	2
Blades, Racks vs. Tower Servers Penetration of Total WW Server Market.....	2
Servers Revenues by Form Factor	2
Server Shipments by Form Factor	2
Server Price Erosion by Form Factor.....	2
Blade Servers Market Opportunity Sizing.....	3
Bimodal Market	4
Blade Servers Market Forecast - Revenues, Units, ASP	4
Blade Servers Market by Technology.....	6

Blade Servers by Operating System	7
WW Blade Market Forecast by Major Market Segments	9
Blades Product Mix by Processor - 2007	9
Blades Price Erosion by Processor 2007-2011	10
WW Blades Market Shares	11
IBM the new leader in Blade Servers	11
Blade Servers - Vendor Shares.....	12
WW Blade Server Market Shares by quarter.....	12
A new de facto blade server standard emerges	12
Intel spreads its wings in blades	13
Telecom Blades Market.....	14
Total ATCA Blades (Server +NonServer) Shipments 2007-11	14
ATCA Server Blade Shipments 2007-11.....	14
ATCA Server & Non-Server* Blade Shipments (Units #K)	15
ATCA Server Blade Shipments (Units #K).....	15
Impact of Stds Based xTCA Blades on cPCI SBC Sales	16
Street Pricing - Blade Servers	17
Storage for Blades.....	18
Networking for Blades	20

5. Blades Technology

Key Blade Server Technologies.....	3
Key technologies in Computing & Communications Blades.....	3
State of Progression of Key Technologies.....	3
IP SAN.....	3
Status of iSCSI.....	3
Industry Initiatives	4
Cisco, Network Appliance, qLogic	4
Microsoft Initiative - Chimney	5
TCP Chimney	5
RDMA Chimney	5
Technology Challenges.....	5
RDMA	6
Market Acceptance of IP SANs	7
Players in Blade Servers by Market Segment.....	7
Vendors by Technology Segment	7
HPC	7
What are High Performance Computing Clusters?.....	7
HPC History.....	8
HPC Architecture	8

HPCC Building Block	8
Software Components.....	9
Hardware Components	9
Network and Server Interconnect.....	9
Management and Monitoring	10
Networking Technologies.....	10
Evolution of 10 GbE.....	10
Marketplace and technical discontinuities will create unique and compelling opportunities:	11
Tier-1: Web Servers	12
Goal.....	12
Key problems	12
Solutions.....	12
Tier-2: Application Servers	12
Goal.....	12
Key problems	12
Solution space.....	12
Tier 3: DB/Transactions.....	12
Key problems	12
Solution space.....	12
Typical Cluster Components	13
Interconnect Contenders	13
Interconnect - Fibre Channel.....	13
Characteristics	13
Status	14
Interconnect - InfiniBand	14
Interconnect - TCP/IP/Ethernet.....	15
Characteristics	15
Status	15
Opportunities.....	15
Technology	15
Comparison - Interconnect Fabrics	16
State of Cluster Interconnect Fabrics.....	16
Technology Issues	17
Bandwidth.....	17
Storage.....	17
Slowly Improving Technologies	17
Latencies	17
WAN latency.....	17
LAN Latency.....	18
LAN II	18
Scaling.....	18
Memory Latency.....	18
TLB	18
Disk latency	18

Cache	18
OS latency.....	18
Heat Transfer	19
Laptop chips are not the answer	19
Desktops are not the answer	19
Power Management is not the answer.....	19
Gut-Wrenching Nightmares	19
Issues - Summary	19
Future: Application Aware Infrastructure	19
Application-centric Storage Virtualization.....	19
New Initiator Model: Processes Driven.....	20
Move from ‘hardware as initiator’ to ‘application as initiator’	20
Performance Standards.....	22
Server Benchmarks.....	22
Client-System Benchmarks.....	22
Conclusion on Benchmarks	23
Performance - x86 vs. UNIX	23

6. Competitive Product Positioning & Strategies

Market Overview	7
Blade Servers Companies	8
Blade Server Companies & Position in Value-Add Chain	9
Competitive Specs	11
Competitive Prices	24
Prices - Sun Blade Servers	24
Prices - IBM Blade Servers.....	26
HS20	26
HS40	28
JS20	29
Prices - Intel Blade Servers.....	29
Altiris	29
Altiris broadens its horizons with server provisioning push	29
Impact assessment	29
Competitive landscape.....	29
Assessment.....	30
SWOT analysis	31
Ammasso	32
AMD	32
Backgrounder.....	32
Competitors	33
Products.....	34

Semiconductors	34
AMD Processor Pricing	34
Customers	36
HPC - Govt. Academia	36
HPC - Enterprise/DB	37
Amphus	37
ManageSite	37
Angstrom	38
Titan64 Quadrablade	38
Titan64 Classic SuperBlade	39
Delta Classic SuperBlade	39
Python Classic SuperBlade	39
Titan64 HPC SuperBlade	39
Delta HPC SuperBlade	40
Python HPC SuperBlade	40
Creator SuperBlade	40
Arula Systems (KVM)	40
Aspen Systems*	40
Overview	40
Product Line	41
Blades - Glacier (Dual Xeon Processor)	41
Blades - Glacier (Quad Xeon Processor)	41
Rackmounts	41
Avamar (Storage Backup)	42
Axion Product Family	42
One Solution	42
Axion E	42
Axion M	42
Avocent Digital Desktops (KVM)	43
Banderacom (Infiniband)	43
BladeFusion	43

9. Research Methodology & Resources

METHODOLOGY	2
PRIMARY DATA.....	2
FACTORS FUELING GROWTH.....	3
MARKETS.....	3
Market Sizing.....	3
MARKET SEGMENTS.....	5
Servers.....	5
Server Platform forecast by price/performance segments:.....	5
Server Platforms forecast by major OS categories:.....	5
Servers forecast by price categories:.....	6
Server market segments by Channels of Distribution:.....	6
Server and storage subsystems market segments by File Systems:	6
Storage subsystems	6
Storage Subsystem segmentation by applications categories	6
Storage subsystems segmentation by Geography	6
Data Networking.....	6
LANS	6
Routers.....	6
Switches.....	6
Hubs (Shared Media).....	6
NICs	6
WANS	7
Access.....	7
Backbone	7
Voice/Data Convergence	7
Voice over Packets Applications	7
Packetized Voice over FR, IP, ATM.....	7
MARKET DEMAND FORECAST	7
Market Demand.....	7
Near Term Forecast (next 1-2 years).....	7
Long-Term Forecast (next 2-5 years).....	7
MARKET SHARES.....	7
GEOGRAPHIC COVERAGE	8
IMEX DEFINITIONS & TERMINOLOGY.....	8
DEFINITIONS	8
TERMS.....	8

Computer Systems & Servers.....	8
Storage Subsystems	8
Data Networking.....	8
